

# The Report

By 张睿鑫, 崔云博, 刘智谦 and 胡文骁

The aim of this report is to investigate the current situation of youth groups as the backbone of communism. We interviewed 30 students from classes 17, 18 and 19 about their study, labor and ways of relaxing on weekends.

## Study

Among the 30 students, 30% of them study 0-2h every weekend, about  $\frac{1}{3}$  study 2-4h, and  $\frac{1}{5}$  study 4-8h, but there are also  $\frac{2}{15}$  study more than 8 hours.

## Labor

Most of the students don't do any housework on weekends. Only  $\frac{1}{15}$  do some housework. It's not a good sign.

## Staying Up Late

Surprisingly, more than  $\frac{2}{3}$  of the students stay up late on the weekends. Among the students who stay up late, 65% of the them play games, and 15% study. 10% of them watch TV, and another 10% do other things. 45% go to bed before midnight and 35% stay up until 2 o'clock. None of them turn in after 4:00 am.

## Games

As you know, most of the games are only allow the juveniles to play it from 8:00 pm to 9:00 pm. Although most of the teenagers love playing games,  $\frac{3}{5}$  of the interviewees will do sports if someone has invited them. However, only  $\frac{1}{6}$  say they don't play games at all. Among the students who play the games on weekends, 32% play games for less than 2 hours each week, 24% for 2-4h, and 28% for 4-8h. But incredibly, there're still 16% of them play the games for more than 12 hours.

## Other ways to relax

Besides games, more than  $\frac{3}{5}$  of the students do sports on weekends, over  $\frac{1}{3}$  read books, and 10% of them read books. But  $\frac{1}{10}$  do nothing to relax themselves.

Unbelievably, most of the students don't do housework on the weekend at all. The youths should spend less time on games and do more to help the social. The youths are the backbone of communism, we should do our best to improve our skills, help the people in need, and fight for our motherland.
